A Computer Science student and Front-end Developer with a deep specialization in building interactive, high-performance user interfaces using React.js, Next.js, and TypeScript. Expert at translating complex Figma UX/UI designs into clean, responsive code with Tailwind CSS, while maintaining a strong focus on seamless user experiences. While specializing in front-end architecture, I am actively expanding my technical breadth into Full-stack development, with hands-on experience in Node.js and Firebase to build end-to-end solutions. A fast learner and collaborative problem-solver, I am committed to mastering emerging technologies and delivering polished, production-ready digital products that solve real-world friction points

Skills

- Front-end development
- CSS
- Programming
- UI and UX prototyping
- React.js familiarity
- HTML
- Javascript
- Web development projects
- Social media management
- Git and GitHub

Education

Bachelor of Science: Computer Science, Expected in June 2027

University of Science And Technology of Southern Philippines - Cagayan De Oro City
